The Mayor Should Resign.

A few more such exhibitions on the part of the Mayor as that witnessed by se who were present in the First Branch Council Chamber last night, will serve perhaps to bring the people of Wheeling to a full realization of the mistake they made in placing in a high and honorable position a man whose principal recommendation was his convivial habits. "Why are removals made so rapidly. The daily changes going on in a city of 59,000 inhabitants are many, and if our postmasters were all put together in a city they would make a city of that size. There would be deaths and resignations, necessary removals and expirations of the terms of service that would naturally require many hundreds of new appointments every week."

"But there is a great deal of criticism because of removals."

"Yet it always has been so and always will be so until it becomes the custom of the Government to publish the actual reasons for these changes. In many instances they are upon inspectors reports, which, if published, would destroy the future of the man and leave a shadow upon his family. For the same reason no information is given to the public on removals, or causes of removals, where there is no inspector's report, but affidavits filed by the people, which in themselves are sufficient to put the department under a severe criticism if removals are not promptly made.

"There has been often much criticism simply because of the politics involved, when the cause of the removal has been drunkenness, neglect of duty and clearly proved unitness to hold the important office of postmaster."

Mrs. Whiteling was escorted by two ministers, but they gave her no aid whatever, she walking firmly and showling no hesitation. Arriving at the scalfold she ascended the ten or a dozen steps unassisted, excepting that each of her spiritual advisers retained a gentle hold of either arm. The sheriff's deputies then placed a leather strap around her skirts at the ankles, the condemned woman meanwhile with uplifted eyes repeating a prayer delivered by Rev. Mr. Jones. The black cap was then adjusted, and at 10:07 the trap was sprung, and Mrs. Whiteling dropped into eternity. The fall was about five feet, and the physicians stated that death was instantaneous from strangulation, though the heart continued to beat spasmodically for some time thereafter. The body was lowered at 10:41 and turned over to Dr. Alice Bennett, of the Norristown Hospital for the Insane, for examination of the brain, after which the body was given to Undertaker Kehr for burial by the side of the murdered husband and children. suffered the extreme penalty of the law was the deliberate poisoning of her hus-

The Whiteling family consisted of John Whiteling, the husband and father, aged thirty-eight years; Bertha, nine years old; Willie, nearly three, and Sarah J. During the entire morning she never for a moment showed the adjittest evidence of weakness, and frequently expressed her pleasure at the prospect of "meeting her husband and children." The several physicians who were present at the execution and who have more or less frequently been with the condemned woman since her incarric creation, expressed supprise at the woman's exhibition of calmess in meeting her death, although they agreed in the statement that she has at no time shown any evidence whatever of an unsound mind.

Mrs. Whiteling spent her last night walking about her cell, singing and praying in which she was joined at intervals by Mrs. Weaver, the prison matron, and a watch woman, who were with her throughout the night. The remains were then cut down and placed in a coffin. Examination by the physicians showed that the neck was not broken and death resulted from strangulation. His body was then taken by the undertaker and removed to the Catholic cemetery for burial.

The crime for which Michael Rizello, alias "Red-nosed Mike," to-day paid the death penalty was committed in the forenoon of October 19, 1888.
